

Towards the Use of Space Resources

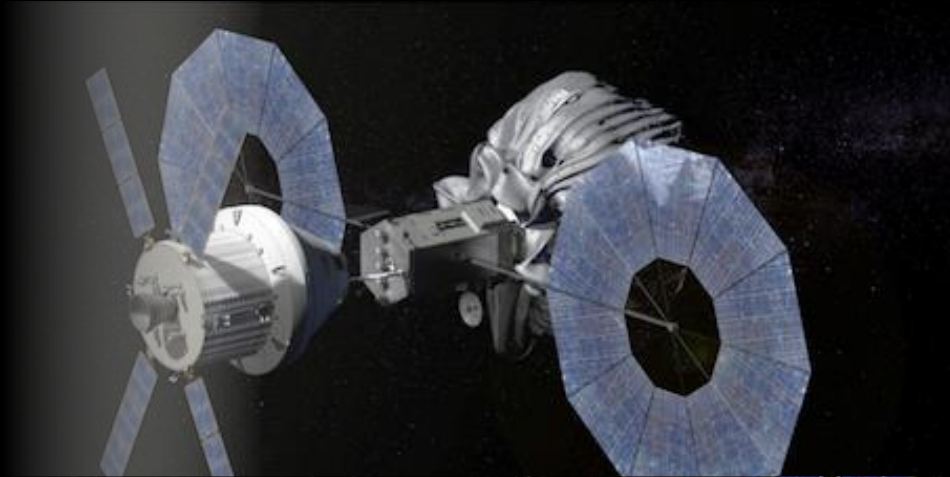

Gary Martin,
Partnerships Director
NASA Ames Research Center

A vision of humans in space

Technological Progress

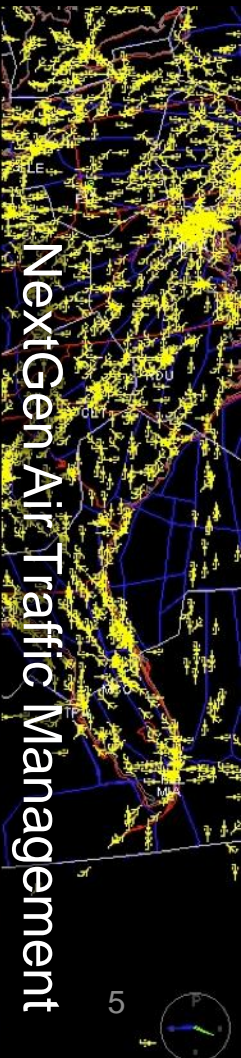

Leveraging Space Resources

NASA Ames Research Center in Silicon Valley

Ames Core Competencies

Ames Asteroid Partnerships

**“NASA and the USA
do not have a
monopoly on good
ideas.”**

– Dr. Pete Worden

Workshop in Sept, 2014

THE ECONOMICS OF NEOs

Opportunities and Challenges

- 
- A composite image representing space exploration. On the left, a view of Earth from space. In the center, a large, purple, ribbed solar sail or space structure. In the bottom left, a lunar lander on the surface of the Moon. In the bottom right, a satellite or probe in orbit. The background is a starry space.
